

At WESTARM the health and wellness of our patients and staff is our main focus. During these difficult times we still strive to exceed your expectations for care.

To ensure we're delivering a safe treatment experience for our patients and team we are:

- Following the latest Centers for Disease Control guidelines, including frequent and thorough hand washing throughout the day, and particularly before and after each patient.
- Sterilizing all clinic surfaces with medical-grade disinfectants.
- Screening all patients, clinicians, and team members for potential Covid-19 exposure or symptoms
- Adhering to strict social-distancing practices when not delivering hands on treatment
- Limiting the number of people in the clinics at one time
- Making schedules more flexible to suit patient needs

The vast majority of our clinics will remain open with normal business hours, ready to deliver the same high quality level of care you've come to expect from us. It is our responsibility and privilege to be here for you and for all of our patients, and we thank you for trusting in us.
